

Water Works Systems

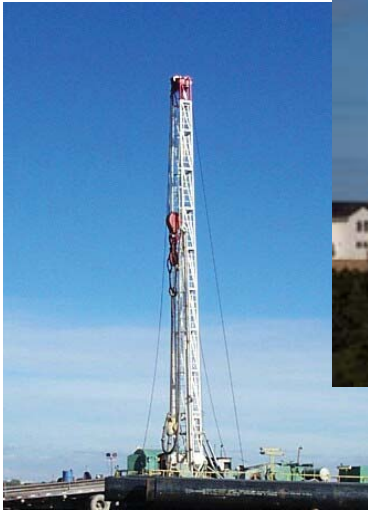

Well No. 14, Well No. 14 Treatment Plant and Elevated Water Storage Tank
Montgomery, Illinois

Construction Cost

- \$4,562,000

Project Features

- Western Development Area Water Works Study
- Well No. 14 (1,200 GPM)
- Well No. 14 Water Treatment Plant
- 2 MG Elevated Water Storage Tank
- SCADA Improvements

Well No. 14 Construction

2 MG Elevated Water Storage Tank

Engineering Enterprises, Inc. (EEI) provided the planning, design and construction engineering services for Well No. 14 and Well No. 14 Water Treatment Plant and Elevated Water Storage Tank in the Village of Montgomery.

In the design of the treatment plant, a vulnerability assessment was performed to provide building security and protection against potential malevolent activity and possible natural disaster.

Located in a residential neighborhood, the water treatment plant was architecturally designed to blend into the neighborhood and protect the level of investment that homeowners have made. For this project, EEI was presented with the American Council of Engineering Companies (ACEC) of Illinois 2005 Engineering Excellence Merit Award.

Well No. 14 Water Treatment Plant
